

Shervin Fallahnejad

EMBEDDED HARDWARE/FIRMWARE DEVELOPER · ELECTRONICS EXPERT

SK7 2LJ, 2 Sunningdale Drive, Bramhall, Stockport, Manchester, UK

☎ (+44) 737-963-1672 | ✉ shervin.fallahnejad@gmail.com | 📷 Shervin | 🌐 shervin

Education

Semnan Azad University (SIAU)

B.SC. IN INDUSTRIAL ENGINEERING - INDUSTRIAL PRODUCTION

Semnan, Iran

Sep. 2004 - Exp. May. 2010

Skills

Electronics

Altium Designer, LabView, PSpice, Keil uVision, MPLAB, MikroC, MikroBasic, MikroPascal, HT-IDE3000(Holtek), PlatformIO, ESP-IDF, Proteus, Bascom, CodeVision

Mechanics

SolidWorks, AutoCad

Programming

C/C++, Basic, Pascal, Visual CSharp, Visual Basic, Java

GUI

Qt, HTML, CSS, JS

Platform

Microcontroller, Linux, Windows, Android, Commodore 64

DevOps

Bash, git, cmake

Experience

YAMA Electronics

CO-FOUNDER & ELECTRONICS DESIGN ENGINEER

Tehran, Iran

Sep 2020 - Present

- We are producing Home Appliances electronic boards, such as Kitchen Hood, Oven, Stove Timer, etc... .
- We are working with different company in whole country (Iran).

Unalink Co.

ELECTRONIC DESIGN ENGINEER

Tehran, Iran

Apr 2020 - Sep 2020

- Designed a Remote Terminal Unit (RTU) to enable information exchange between physical power grid and distributed control system.
- Developed a web server to communicate data from web to RTU on STM32.

Ovio Smart World - Smart Home and Office Automation

SOFTWARE & HARDWARE ENGINEER

Tehran, Iran

Nov 2019 - Feb 2020

- Design and Development a Hardware based on ESP32, as a Connected IR Blaster.
- Implement and Development a File System for ESP32.

Samsson Group

SOFTWARE & HARDWARE ENGINEER

Tehran, Iran

Apr 2019 - Sep 2019

- IoT Platform Development.

Fara Fan Faraz Tadbir

SOFTWARE & HARDWARE ENGINEER

Tehran, Iran

Sep 2015 - Sep 2016

- Design and Development of Poultry Farming Environmental Control System
- Monitoring and Control of Industrial Refrigeration System.

Tosan Rahvar - Design and Production of Electronic Switches

SOFTWARE & HARDWARE ENGINEER

Tehran, Iran

Aug 2013 - Present

- Design and Development of Touch Control Switch for Kitchen Hood.
- Design and Development of Elevator Touch Button.
- Design and Development of Oven Controller.

Negaresh Rayaneh Pouya (NRP)

SOFTWARE & HARDWARE ENGINEER

Tehran, Iran

Sep 2014 - Sep 2015

- Design and Development of Industrial Oil and Gas Electric Actuator.
- Design and Development of Pilatus PC-6 Porter Altimeter.
- Design and Development of Boost Converter 6v to 19v 3Amp.

NoAvaran Tajhizat Imen Bargh (NATIB)

SOFTWARE & HARDWARE ENGINEER

- Design and Development of Electronic Grounding System.
- Design and Development of Fluorescent Electronic Ballast.

Tehran, Iran

Aug 2013 - Feb 2014

Kimia Behsanj

SOFTWARE & HARDWARE ENGINEER

- Designed and developed a Hardware based on PIC32, as a Tensile Machine controller.
- Implement and develop Tensile machine software in CSharp.
- Implement a bootloader in CSharp software to remotely upgrade hardware.

Tehran, Iran

Aug 2013 - Present

Gaam Electric - Welding & Cutting Equipment

ELECTRONIC DESIGN ENGINEER & FIRMWARE DEVELOPER

- Designed and developed a GUI and Hardware as a HMI for TIG 500A welding machine.
- Designed and developed a Database on PIC32 to handle lots of data related to welding machine.
- Implement a software in CSharp to communicate with a Hardware for test welding machines operations.

Sari, Iran

Nov 2011 - Mar 2013

Extracurricular Activity

Amirkabir University of Technolog - Robotic Institute

MEMBER

- Design and Development of a Hardware to Control Rescue Robot.

Tehran, Iran

Nov. 2011 - Feb 2012

Honors & Awards

INTERNATIONAL

- | | | |
|------|--|---------------|
| 2012 | Finalist , Amirkabir University of Technology Robotics & Artificial Intelligence Festival & 4th National Kharazmi Robotics Competitions | Tehran, Iran |
| 2010 | 3rd Place , Isfahan University of Technology Robotics Competitions | Isfahan, Iran |

Projects

Minimal LED Floor Lamp

PERSONAL

- Self-Learning Capability
- Touch Control
- Anodized Aluminium Profile

Tehran, Iran

2020

Monitoring and Control of Server & UPS Rooms Environmental Parameters

NATIONAL RESEARCH INSTITUTE FOR SCIENCE POLICY OF IRAN

- Monitoring and Control using a Web-Server.
- Linux OS on a Raspberry Pi.
- BLE Temperature & Humidity Sensors.
- Monitoring all UPS's Parameters using SNMP.
- Universal IR Blaster to Control A/C.
- Call and SMS in case of CRITICAL conditions.

Tehran, Iran

2020

Monitoring and Control of Industrial Refrigeration.(Poultry Cold Storage)

FARA FAN FARAZ TADBIR

- Monitoring and Control using a Web-Server.
- Linux OS on a Raspberry Pi.
- DS18B20 1-Wire Temperature Sensors in a Mesh Network.
- Tiny self designed UPS to keep system alive in power failure.

Tehran, Iran

2020

Design and Development of Touch Control Switch for Kitchen Hood

TOSAN RAHVAR

- Capability to Record and Play Voice Messages on Kitchen Hood.
- LED Display.
- Temperature and Gas Sensors.
- IR Remote Control.
- Switching Power Supply.

Tehran, Iran

2019

Design and Development of Elevator Touch Button

TOSAN RAHVAR

- I2C Protocol.
- Unique Address for each Button.
- Touch Sensitivity Up to 5CM.
- RGB LED Indicator.

Tehran, Iran

2019

Design and Development of Oven Controller

TOSAN RAHVAR

- Linux OS on a NanoPi Fire2A.
- 7" Touch Display.
- Nice GUI Implemented using Qt.

Tehran, Iran

2018

Design and Development of Touch Control Switch for Kitchen Hood

TOSAN RAHVAR

- 16 WS2812 RGB LEDs.
- Temperature and Gas Sensors.
- IR Remote Control.
- Switching Power Supply.

Tehran, Iran

2018

IoT Platform Development

SAMSSON GROUP

Tehran, Iran

2018

Infrared Heating Panel

PERSONAL

- Make an Conducting Ink using Graphite and other Chemical Materials.
- 85°C on 12V, 4A Input.
- It had cracks in the structure and need some improvement...

Tehran, Iran

2017

Design and Development of Poultry Farming Environmental Control System

FARA FAN FARAZ TADBIR

- 7-Segment Display.
- PIC18 Series as a Core Processor.
- DS1307 RTC.
- Sensirion SHT21 Temperature & Humidity Sensor.
- Sensirion Pressure Sensor.
- RS485 Protocol.
- Aviculture algorithm.

Tehran, Iran

2016

Design and Development of Industrial Oil and Gas Electric Actuator

NEGARESH RAYANEH POUYA

- ATEX Certification
- Multi-turn Capability Inching/positioning and On/Off
- Wedge, Knife, Sluice/weir, Diaphragm, Conduit/slab, Parallel slide, Globe, Choke, Butterfly, Ball, Plug, Damper Can be installed.
- 250 Actuators on Rayabus Specific Network are Fully under Control and also Modbus and Profibus.
- Configuration and Calibration without need to open Actuator Panel.

Tehran, Iran

2015

Design and Development of Pilatus PC-6 Porter Altimeter

NEGARESH RAYANEH POUYA

- Broadcom Avago Dot-Matrix Display.
- PIC18 Series as a Core Processor.
- Pressure Sensor.
- Stepper Motor.

Tehran, Iran

2015

Design and Development of Boost Converter 6v to 19v 3Amp

NEGARESH RAYANEH POUYA

Tehran, Iran

2014

Design and Development of Injection Machine PLC

PISHRO POUYESH

- Linux on CubiBoard Mini Computer.
- PIC32 IO Control board with LAN Interface to CubiBoard.

Tehran, Iran

2014

Design and Development of Electronic Grounding System

NOAVARAN TAJHIZAT IMEN BARGH (NATIB)

- Protect against Spark in Explosive Gas Atmospheres.
- Based on Op-Amps.

Tehran, Iran

2013

Design and Development of Fluorescent Electronic Ballast

NOAVARAN TAJHIZAT IMEN BARGH (NATIB)

- Protect against Spark in Explosive Gas Atmospheres.
- 2-Channel.

Tehran, Iran

2013

Implemented Value Engineering - Material Substitution Model

GAAM ELECTRIC - WELDING & CUTTING EQUIPMENT

Sari, Iran

2012

Developed and Implemented a Database on MCU Flash

GAAM ELECTRIC - WELDING & CUTTING EQUIPMENT

- Save and Load Lots of Parameters with its own Attributes with ease.

Sari, Iran

2012

Developed and Implemented USB HID Bootloader on PIC32MX460F512L

GAAM ELECTRIC - WELDING & CUTTING EQUIPMENT

Sari, Iran

2012

Design and Development of Welding Machine Control Panel

GAAM ELECTRIC - WELDING & CUTTING EQUIPMENT

- PIC18 Series as a Core Processor.
- 128x64 GLCD

Semnan, Iran

2011

Design and Development of Liquid Level Monitoring In A Large Tank

PERSONAL

- Atmel AVR Atmega8 as a Core Processor.
- Ultrasonic.
- LPT Communication to Computer.
- Use of MATLAB for Data Analysis.

Semnan, Iran

2010

Work with a Fingerprint Sensor

PERSONAL

- Transfer Data on RS232 Protocol.

Behshahr, Iran

2009

Design and Development of Stroboscope for Extruder Machine Blade Calibration

BEHPAK INDUSTRIAL CO.

Behshahr, Iran

2009
